Professional Experience

Simplify Infotech Private Limited (KoinX) | Bhubaneswar, Odisha

April 2025 – Current

Finance Executive - Business and Operations

- Owned end-to-end month-end close and R2R activities — GL reconciliations, AR and receipt accounting across 40,000+ invoices/transactions spanning 5 countries (Stripe, Razorpay, PhonePe, Cashfree) — with zero audit exceptions across 12 consecutive cycles.
- Prepared monthly financials and Month-on-Month (MoM) analysis, reviewing revenue and expenditure movements, variances and flux for management reporting; cut close cycle time by 15%.
- Maintained investor financial reporting schedules and supporting financial data feeding into periodic Investor MIS reporting shared externally with stakeholders.
- Supported budgeting and expenditure planning across three group companies, tracking and analyzing planned vs. actual spend.
- Prepared foreign sales and foreign expenditure analysis and maintained supporting schedules (FY 2025-26) for financial reporting and FEMA/Form A2 filings.
- Performed balance sheet reconciliations, accruals, prepayments and trial balance review, with account-level variance analysis.
- Supported statutory and internal audit activities — schedules, reconciliations and documentation — maintaining SOX-aligned internal controls and clean Companies Act 2013 sign-off.
- Managed GST/TDS compliance and reporting (GSTR-1/2B/3B, 26Q/27Q) with zero-penalty ITC claims over 12 months; automated AP disbursements via the Zoho Books API, cutting processing time by 40%.
- Built Excel/Power BI reporting and finance automation solutions, including FinRecon and a Playwright-based Zoho e-invoice fixing agent, cutting reconciliation time by up to 70%.
- Tools Used: **Zoho Books, Excel, Power BI & Razorpay Dashboard**

Jeevan scientific Technology Limited | Hyderabad, Telangana

June 2024 – April 2025

Executive – Finance & Accounts (SAP FI / Ariba)

- Managed finance and accounting activities across the parent company and two subsidiary entities, including intercompany accounting, elimination checks and reconciliations.
- Supported working capital management by monitoring receivables, payables, vendor balances and operational cash requirements; improved overdue vendor payment rate by 20%.
- Processed 500+ monthly vendor invoices through Dr. Reddy's SAP Ariba portal with zero three-way match failures, including GST/TDS verification.
- Supported month-end close, GL reconciliations and financial reporting using SAP FI.
- Delivered inventory and manufacturing cost accounting (BOM, WIP, COGS) in Tally Prime with zero stock reconciliation gaps.
- Supported statutory and internal audit requirements, preparing schedules and documentation for review; delivered 100% on-time statutory filings (GSTR-1/3B, 2B reconciliation, TDS 26Q) with Ind AS 115-compliant revenue recognition and clean audit outcomes.
- Reduced FX reconciliation discrepancies by 25% by recording exchange-rate variances and handling Form A2/15CA-CB filings for RBI/FEMA compliance.
- Tools Used: **Tally Prime, Excel, Power BI & SAP FI**

Projects

"Zoho E-Invoice Fixing Agent"

August 2026

Python | Playwright | Excel Automation

- Built a multi-stage browser-automation agent to clear the "Yet to be Pushed" e-invoice queue in Zoho Books: auto-scans and classifies failed invoices (wrong B2B address, overseas/non-INR, unknown), auto-fills fixes via Stripe payment matching, and pushes corrected invoices to the government IRP portal.
- Designed with dry-run-by-default staging and a full Excel audit trail (every scan, fix, skip, or failure logged), cutting manual invoice-correction effort ahead of GST e-invoicing compliance deadlines.

"FinRecon — Financial Reconciliation Suite".

February 2026

Python | FastAPI | Excel Automation | GST

- Built **FinRecon**, a tool automating financial reconciliation for finance teams and CA firms.
- Implemented three modules: **GST IMS Recon** (Purchase Register vs GSTR-2B), **Bank Recon** (bank statement vs ERP ledger using UTR/narration matching), and **Payment Gateway Recon** (PhonePe, Cashfree, Stripe vs invoices).
- Generated **auditor-ready multi-sheet Excel reports** highlighting mismatches, ITC risks, and reconciliation gaps.

"SAP FICO Implementation Project".

January 2026

SAP FICO Implementation Project – Internal / Practice Environment

- Configured **Enterprise Structure**: Company Code, Chart of Accounts, Fiscal Year Variant, Controlling Area.
- Set up General Ledger Accounting (GL), document types, number ranges, field status variants, and posting controls
- Created Business Areas, Cost Centers, Profit Centers, and Segments for management reporting
- Enabled FI-CO integration through cost and profit center assignments (OKEON) and validated postings through test scenarios
- Executed GL postings and intercompany transactions using FB50 and FB01, including reconciliation testing
